Letter from the President

I hope everyone had a great holiday season spending time with family and friends and enjoying a little extra time off doing the things you like most, like duck hunting! The arctic blast brought the ducks south; I'm proud to know that I can still hunt in 8-degree weather with a 25mph wind! You know, in the last newsletter, we talked about how hot it was! Boy, what a difference!

I want to start the new year by congratulating Josh Smith for being selected as our employee of the year for 2022. This is a well-deserved honor as Josh has always gone the extra mile for Glass Inc.; my hat off to him. I would also like to take this opportunity to announce a few promotions within our contract department that will help facilitate future growth. Congratulations to them all!

- ▶ Johnny Cumberland promoted to Contract Executive.
- ▶ Steven Dyess promoted to Contract Manager in Meridian.
- ▶ Jack Rush promoted to Contract Manager in Foley.
- ▶ Josh Smith promoted to Contract Manager in Gulfport.

The outlook for this year is positive, with our current backlog being above what it was last year and still being driven by hurricane damage projects and numerous small to mid-size projects scattered throughout Mississippi, Alabama, Louisiana, Florida, and Tennessee. Our city service business at all locations continues to grow, with 2022 being our largest cumulative sales year to date. Keep up the great work!!

Battling ever-changing prices with longer-than-normal lead times and poor service overall from most of our vendors continue to be where most of our problems lie, but persistence and striving to be the best at what you do will get us through it! Our employees consistently outperform our competitors, and that's why we are the best!

Thanks for all the hard work, and as always, "Stay safe and watch out for your coworkers!"

Cristy Moffett

Cristy was born and raised in Meridian, Mississippi. She attended West Lauderdale and graduated in 1988. She went to Meridian Community College, where she received a business degree, and then went to work for her family's electrical business, Thompson Electric, for about 25 years. Cristy then went to work at Liberty Fuels Company for around 10 years as a buyer.

Cristy came to work in the contract billing department of Glass Inc. in 2019, when the coal mine closed. "Coming from the electrical world, the glass world is a whole different ballgame, but everyone here has been so helpful to help me learn," says Cristy. "I love the family atmosphere here at Glass Inc. It is nice to feel like you are coming home to work. The work is busy and constant, but it is nice to be treated like family, which makes all the difference."

Cristy and her husband, Joey, have been married for 32 years, and together, they have two girls and two grandsons. "If I could've figured out how to have grandchildren first, I would've skipped the whole kid thing," Cristy jokes. "I love being a grandmother. Life is good."

In her spare time, she enjoys being outside in the flower bed, gardening, boating, fishing, and walking.

“

Coming from the electrical world, the glass world is a whole different ballgame, but everyone here has been so helpful to help me learn.
